

### REMARKS

Applicant is filing this preliminary amendment to better define the scope of the invention through the newly presented claims. No new matter has been added and support for all claims can be found in the specification, as originally filed. This preliminary amendment is being filed prior to the receipt of the first Office Action in this case and is believed to be in compliance with 37 CFR §1.115.

Applicant has cancelled claims 1-7 and 9-12. Applicant inadvertently did not include a claim 8 in the original application. Applicant has also added new claims 39-50. As a result, claims 13-50 are currently pending in the current application. Applicant has previously paid for 38 claims so applicant believes that no additional fees are due in connection with this preliminary amendment.

It is respectfully submitted that all remaining claims in this application are in condition for allowance. Prompt examination and notification of allowance is respectfully solicited.

Respectfully submitted,

Date: 2/20/2006
